

Andover Township Environmental Commission Meeting Minutes
for
Thursday, April 3, 2014

Commission members in attendance were Nikki Stewart, Christine Kretzmer, Dolores Blackburn, David Kolstad and Eric Olsen.

We discussed and planned for the New Jersey Tree Recovery Campaign which is to be held on April 5th at 10:00am. Dolores suggested a sign in sheet to log which residents took which trees. Christine will contact DPW to arrange for tow 8ft tables and keys to the garage at Hillside Park. Christine will contact Mayor Phil Boyce to have a press release done in the NJ Herald and Township Journal.

Dolores Blackburn discussed having Rutgers Extension Service come to Hillside Park to do a Stormwater Management Program sometime in either the end of May or the beginning of June. This would be a joint effort between the Commission and Sustainable Andover.

The correspondence for this meeting was a Freshwater Wetlands Application Checklist for the Scotto Land. The purpose of the checklist is reconstruction of an existing bridge over Kymer Brook.

No public was present.
