

SUSTAINABLE ANDOVER

Invites 25 residents to brighten their yard with sunflowers.

**Just need a deer-proof area and lots of sun.
Seeds will be provided.**

August 14-29, 2021, Sustainable Andover will be promoting our local restaurants, businesses, farms and the many outdoor activities our town enjoys .

The sunflower was chosen to reflect Andover's sunny side.

Residents can pick up seed packets starting May 3 at the Municipal Bldg., 2nd floor, Municipal Clerk's office. Sunflower fact sheets will be attached to each packet.

First come, first served.

The seeds can be started indoors or planted directly outside after Mother's Day in our area. The goal is to have the flowers blooming the last two weeks of August or sooner.
